RE: Summer Student Employment Program

To whom it may concern:

The Summer Student Employment Program is seeking job positions for High School, Post-Secondary and Adult Basic Education students from 15-30 years of age. The goal of the program is to help find employment for students in order to help them gain the training and experience they need to for future employment. In addition, for Post-Secondary students, we try to place them with in jobs that are related to their choice of studies. The Summer Student Employment Program (SSEP) will make job opportunities fair and accessible to all students who qualify.

This program is set up where we place students in different areas such as; Recreation, LLRIB Departments, the Youth Haven and Band businesses, where they are supervised and trained on site by seasoned veterans who will act as mentors for the individual(s). The SSEP pays for half of the wages and the other half is paid by the employer.

The Summer Student Employment is wondering if there are any spots available to place our students this year. Please contact me with the information given with this document if there are any positions the SSEP can fill.

Sincerely,

Alysha Roberts

Summer Student Employment Coordinator
