SMVS Winter Festival
Traditional & Good Fun for All

April 13th, 2018

FIRE SAFETY
an everyday concern

CIRCLE OF COURAGE

BELONGING A sense of community and being
MASTERY Competence in many areas. Cognitive, Physical, Social, Spiritual. Having self-control. Striving to achieve personal goals rather than superiority
INDEPENDENCE Being responsible for failure and success. Disciplining one's self.
GENEROSITY Looking forward to being able to contribute to others. Be able to give cherished things to others.

The Virtue for April is:
CREATIVITY

*Creativity does not come naturally.
It is hard work, and it takes practice*

Creativity is the power of imagination.

Creativity is a way of developing your own special talents.

Creativity is a way of making things better.

CREATIVITY QUIZ:

A better way to wake up in the morning
Your own creative solution

A better way to do homework

A creative way to do homework

A better way to get along with others

A creative way to make new friends

A better way to stay healthy

Something new and different you can do to improve your health

Wildlife Management Class - Ms. Charles

Tom Charles on how starting a fire
Wildlife Management Class 2018

Getting ready to track wildlife

Skinning a rabbit

Students will soon be able to pick their courses online at myblueprint.ca

The Wildlife Management 10, 20, 30 courses encourages students to examine beliefs and attitudes related to wildlife, and to develop the knowledge and skills that allow examination of the many occupations in the field of wildlife management; such as Conservation Officer. Although it is preferred that you take the courses in 10, 20, 30 sequence, it is not required, only preferred. There is no pre-requisite for any of the 3 levels.

In this course you will grow to understand how the natural world contributes to the Canadian identity. And you will develop skills in outdoor experiences that will allow you to develop a relationship to nature and to identify the skills needed to study wildlife. You will study how wildlife management occurs and how the government and private agencies can contribute to the maintenance and management of wildlife resources. And finally, you will develop your own conservation ethic to preserve wildlife.
